

BATTLESHIP – refereed by the chain

Hidden fleets, fire by coordinate, sink to win. Your board is committed as a hash – the chain can't see your ships, but it catches any lie. No wallet at risk: the page makes a throwaway key that plays for you.

YOUR PLAY WALLET · MADE FOR YOU IN THIS BROWSER – NO EXTENSION, NO CONNECTING

address **0xe0b52e...80edc8** · gas **0.000000** · **0** \$DEPTH

copy address

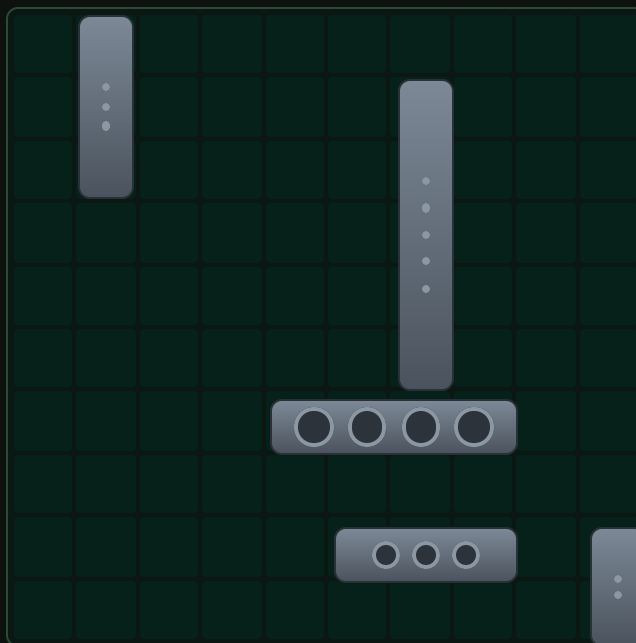

Send a little Robinhood Chain gas to the address above to play – a whole match is a few cents, and it never touches your real wallet. To wager, also send it some \$DEPTH.

Back up key

Import a key
